SECTORS REVENUE

Total Revenue of NYSE Sectors from 2013 to 2015

- The Energy sector has seen a drastic decline from 2% in 2014 to 52% in 2015. It has the highest deviation of 269 billion and a range of 481 billion due to its market fall. Its mean growth rate for 214 to 2015 is -27%.
- The sectors that did well on the market are: Health Care at 10%, Real Estate at 9%, Consumer Discretionary at 7%, IT at 6% and Telecommunications at 5 %. For a person that doesn't have as much fund to invest, these sectors are a good starting point for diversifying their portfolio.
- The Financials and Real Estate sectors has the lowest standard of deviations at 4.8 billion and 6.2 billion respectively, this suggests that their annual earnings are not that far from their average revenues and thus stable markets.

HEALTHCARE EARNINGS

- From this chart of earnings of Health Care Distributors from 2013 to 2015, we can quickly assess that there is at least 70 billion dollars of revenue that separates half of the companies that is listed in this sub-industry.
- The highest range of revenue for the Health Care Distributors was in 2015 with 177 billion. That is how much McKesson's revenue of 179 billion when subtracted Water's Corporation's revenue of of 2 billion.
